# Players Code of Conduct

The AFL has an expectation that all States have a strict Code of Conduct in place for players attending National Championships.

AFL Queensland places high importance on discipline and general acceptable behaviour of all players, coaches and team support staff participating in Intrastate and Interstate championships.

AFL Queensland has a zero tolerance policy in relation to the self discipline of all players participating in representative championships.

Zero tolerance, in relation to player self discipline, means that players act within the spirit of the game and accept that the following guidelines are for the benefit of, not only creating a better environment for personal development, but also presenting the game in a manner that will encourage others to participate.

## Self Discipline Guidelines

- Know and play by the rules.
- Control your temper - verbal and physical abuse of any other players, officials, umpires and the general public will not be tolerated.
- Treat all players as you would like to be treated, do not bully or take unfair advantage of another player.
- Accept any decisions made by umpires and respect the role that they play.
- Co-operate with your coaches, support staff and team mates at all times.
- If taken from the ground for a rest, rotation, or may be for an undisciplined act, respond in a positive manner and quickly leave the ground through the interchange area when requested to by any team official or umpire and remain in the designated bench area for your team.
- Be aware of the order off rule and the consequences of undisciplined behaviour. The order off rule requires that the offending player must remain off the field for whatever period of time that the umpire has decided by showing either the yellow or red card when the send off occurred.

**Replacement is allowed** for the player whilst the penalty is in operation. For the purpose of this Rule, “**off the field**” means outside the boundary line. Players sent off **must not** cross the line **until** their send off period has expired.

- Be a good sport before and after games, no matter the result, by shaking your direct opponent’s hand.

## **SEND OFF RULE - REPRESENTATIVE FOOTBALL**

1. Club appointed umpires do not have the authority to ‘send players off’ unless their club is not playing.
2. Field umpires, either under the ‘single’ or ‘two umpire’ system, are the only umpires with the authority to send players off the ground. Goal and boundary umpires are not so authorized.
3. The ‘Send Off Rule’ is automatic when the Field umpire reports a player, but can also be used to invoke an instant penalty for what otherwise would be a breach in the laws of the game without reporting such a player. This would apply when a player has not committed a reportable offence but has breached the law and given away a free kick in a deliberate and undisciplined manner or behaved in a manner detrimental to the image of the game. If an umpire, by error, fails to send off a reported player,

this in no way alters the validity of a report. **If a player is sent off twice in the same game and is not reported, such player will be suspended for one fixture or finals game.**

4. The authority of a field umpire to send off players, not only includes when play is in progress, but also includes all other times when players are on the field of play. If a player is sent off; before the commencement of the game, in-between the first and second quarters, or between the third and fourth quarter, he must remain off the field for that quarter and can be replaced.

**5. The field umpire will signal that a player has been sent off by pointing to the boundary line with his outstretched arm where he will show either a yellow card for a cooling off period or red card which means he has been reported and cannot return to the field during the remainder of the game.**

The player must leave the field immediately via the interchange area and report to the Interchange Steward. **The game must be stopped and as soon as practicable by the central umpire and time added while the player leaves the field. The central umpire must ensure that the player goes through the interchange area and must not restart play until that occurs.**

6. If a player does not leave the field quickly he can be reported for deliberately wasting time.

7. A player, who has been sent off and **does not** report through the Interchange area when leaving the field, **will not be allowed** back on the field of play and he cannot be replaced.

8. When the sent off player or his replacement returns to the field of play in terms of (5) above, he must report through the Interchange area.

9. The interchange steward must indicate clearly on the 'Interchange Form', the time and name and number of the player sent off and they must indicate when the player, or a replacement, goes back onto the field in terms of (5) above.

10. Any player reported will be sent off for the remainder of the match.

11. Where a sent off player or his replacement goes back on the field before the penalty has expired and a count of players has been called, which results in a team having the incorrect number on the field, then such team may be penalized by way of reverse of match results, annulment of score or part thereof, fine or censure, as the Management Committee shall consider proper.

## Consequences

Players who are reported and subsequently found guilty and suspended either at club level or during State Championships will not be considered for State selection or allowed to participate in any football games or activities conducted by his regional team or AFL Queensland during the time period of that suspension.

At the completion of his suspension he will be eligible again for talented program activities. If during the Championships the Talent Manager or his designated representative views a player acting in an undisciplined manner and that player is not disciplined by his coach, then the Talent Manager will request the coach remove the player from the ground for a cooling off period.

I have read the above Player Codes of Conduct, Send Off Rule and Consequences and I fully and completely understand its contents and ramifications.
